

# RECYCLING TECHNOLOGY

**ECOSTER**

**FOR ALL YOUR RECYCLING CHALLENGES**

Ecoster Recycling Systems is an international technology supplier of machinery and systems for the recycling of solid wastes.

The product range includes over 20 different types of machines, that cover all key process steps in modern waste handling - Shredding, Screening, Grinding and Separation.

The focus is always on innovative technology and solutions that ensure the maximum customer benefit. Ecoster designs and manufactures industrial plants for the recycling and disposal of any type of solid waste. A team of professionals, technicians and designers passionately share their knowledge, experience and expertise in the field of technologies for treating solid waste.

We work closely with loyal partners, also expanding our operations internationally.

INSTALLATION

## PRODUCT RANGE

### ***SHREDDING***

- PRIMARY SHREDDER
- DUAL SHAFT SHREDDER
- SINGLE SHAFT SHREDDER
- FOUR SHAFT SHREDDER

### ***SCREENING***

- TROMMEL SCREEN
- VIBRATING SCREEN
- DISC SCREEN
- OSCILLATING SCREEN

### ***GRINDING***

- HAMMER MILL
- GRANULATOR
- HORIZONTAL GRINDER

### ***SEPARATION***

- MAGNETIC SEPARATORS
- AIR SHIFTERS
- DENSITY SEPARATOR
- EDDY CURRENT SEPARATOR

**TROMMEL SCREEN**

**DS SHREDDER**

**GRANULATOR**

**HAMMER MILL**

**WOOD CHIPPER**

**VERTICAL BALER**

**OB MAGNET**

**DISC SCREEN**

**BELT CONVEYOR**

**VIBRATING SCREEN**

## THE RIGHT SYSTEM FOR YOUR APPLICATIONS

We are your specialists at processing all types and sizes of material. At Ecoستر we offer the largest range and size of machines for processing all types of waste and materials for recycling. Ecoستر products represent high quality, innovation, and reliability. Ecoستر machinery is designed to have a high performance, low energy consumption with maximum environmental friendliness. At Ecoستر you will find an impressive range of recycling machines for all fields of application including chipping, crushing, grinding, mixing, separating, screening, shredding, sorting and windsifting. Ecoستر machinery is working in the forests, landfills, quarries, recycling depots, transfer stations and integrated in waste systems.

**APPLICATION**

# SUPPORT

We provide our customers with a high quality service, where our highly trained and skilled engineers and electricians are available on request. Our technology partners are experts within their fields and share our enthusiasm and drive to ensure that our customers come first and receive a high quality and professional service at all times. Our team's knowledge and experience ensures that our customers receive not only a high quality product but also an exceptional customer service. We offer expert advice on the running and maintenance of your recycling plant.
